

## Press Release

*Lux-Right*™ products to be robotically welded.

Minneapolis, MN – July 1<sup>st</sup>, 2006 -- St Paul Corrugating Company announces the addition of a new, state-of-the-art robotic arc welding cell. All galvanized welded products including our new galvanized Life-Step™ and Corner-Step™ egress ladders and the Safe-T-View Cover™ egress window well cover will be robotically welded ensuring the level of quality expected of *Lux-Right* products.

St Paul Corrugating, Company established in 1885, and makers of "The Original Areawall" will continue to develop and offer new products to enhance below ground living space. Please contact your sales representative or call our factory at 800-439-9271 for more information.
